President's Message

Congratulations class of 2006!! It shouldn't be a shocker that the past four years have flown by as they have. They were filled with laughs, fights, and cherished memories. These past years have become a safety net for us and so abruptly, things are about to change. Many of us will be going to some type of college whether it is BCC or Yale, we are all going. All of us will have to start fresh with new friends and new memories to start working on. While getting used to these new surroundings, please don't forget what is really important in life. The truly important things are many times overlooked, but if a closer look is taken you will see what they are. They are the small things like the bus rides home from a win or a loss, the fieldtrips, and the bonds made over the past four years. Those are the things that we will look back on and laugh about. Remember and cherish the years that you have spent here; they are a marking point on the calendar of your life. If only one thing can be taken from Somerset High School it is to stay young for as long as possible. Too many people try to grow up too fast. It's not worth it. Have fun now, make lots of mistakes now, and enjoy being young and having the opportunity to make those mistakes. Don't grow old to think of what you could have done, live in the now that's what's important.
